

pencil box: drawing feet

Step 0 - Draw a long rectangular shape to represent the shape of the foot.

Step 1 - Add 5 cylinders to represent the toes. Draw the shadows between the toes rather than as separate shapes.

Step 2 - Decrease the bottom of the rectangle and angle in to represent the heel.

Step 3 - Refine contours of foot and toes according to anatomy. Note the slope down from the large toe to smaller toes.

Step 4 - Add shading.
