

Perfect Circle with a Yellow Fill and no stroke.

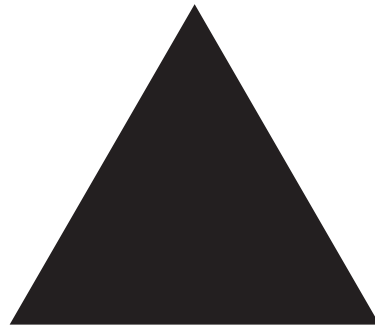

To get a perfect circle hold down the shift key as you draw.

With the Polygon tool, draw a triangle.

When drawing, press the down arrow on the keyboard.

Each time you press the down arrow, you will take away a side.

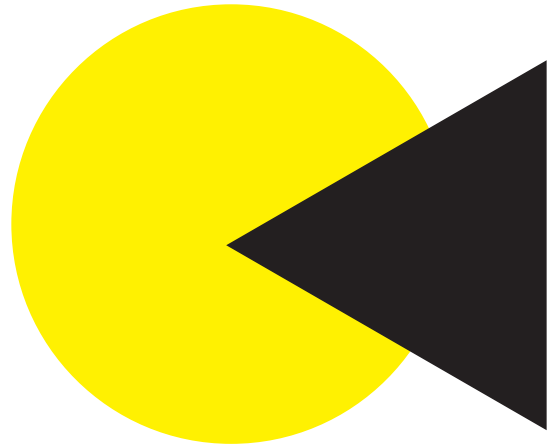

Rotate the triangle 90 degrees. You can use the Transform Palette.

Overlap the Triangle onto the circle. Select

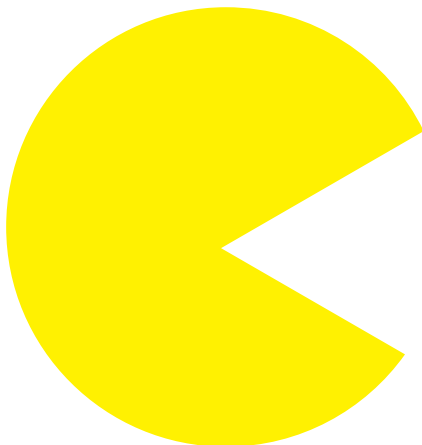

Both objects. Use the Direct Selection tool. Click on one.

Hold down your shift key and click on the other shape.

Open the Pathfinder palette.

Click on the button that says Subtract from Shape area.

Add another circle. Fill it with black.

Now you have Pac Man. Anyone want to try to create Ms. PacMan? :)
